

We're innovative and community focused

Statkraft is dedicated to engaging with communities and bringing meaningful benefits.

We would like to speak with you about how this project can bring new investment to your community. We are open to your ideas.

Community Benefit Fund

For Appin we have committed to a Community Benefit Fund that delivers £5,000 per MW installed, per year, for the operational lifetime of the project.

Shared Ownership

We are pleased to offer Shared Ownership on our new development projects, if there is local interest. We would like to hear your views on enabling the community to have a financial share in Appin Wind Farm.

Improved Broadband

Join our exhibitions to tell us more about the broadband service in your area and to find out more about our broadband feasibility report we commission for our projects and if community benefit funds could be used to improve broadband in the area.

Local Supply Chain

We want to work with local businesses to deliver our projects. Visit our project website for information on how local businesses can register their interest.

Please return the freepost reply card provided.

Invitation to Public Exhibition: 7 September – 8 September 2022

Appin Wind Farm

We would like to introduce ourselves and our proposal for Appin Wind Farm.

Twentyshilling Hill Wind Farm, Sanquhar, 9 turbines.

A VARIETY OF WAYS
TO FIND OUT MORE:

2 local
EXHIBITIONS

3 week
ONLINE EXHIBITION

1 online
CHAT SESSION

We are bringing forward a proposal for Appin Wind Farm located approximately 12.5km west of Thornhill, 6.5km north west of Tynron and 6km north west of Moniaive in Dumfries and Galloway.

We have been active in Dumfries & Galloway for a number of years. We recently completed construction of Windy Rig and Twentyshilling Hill Wind Farm and look forward to meeting you to discuss this project and the benefits it could bring.

We are providing an opportunity to meet virtually or in person, at Moniaive and Tynron, at one of our exhibition events, where you can find out more about our plans and provide feedback to help shape the project.

About Us

Statkraft is Europe's largest generator of renewable energy, with origins going back over 125 years in Norwegian hydro power. Our Scottish headquarters are in Glasgow and we have 4,800 employees across 19 countries.

Appin Wind Farm Proposal

Community engagement is very important to us.

We are committed to listening to communities to help shape and inform our proposal. The 25 turbines originally considered for the site have been reduced to 17 following further studies and initial feedback.

For more information, visit:

www.appinwindfarm.co.uk

17 Up to 17 wind turbines proposed

£5,000

Per MW installed per year for a Community Fund
As recommended by Scottish Government

A maximum height to blade tip:

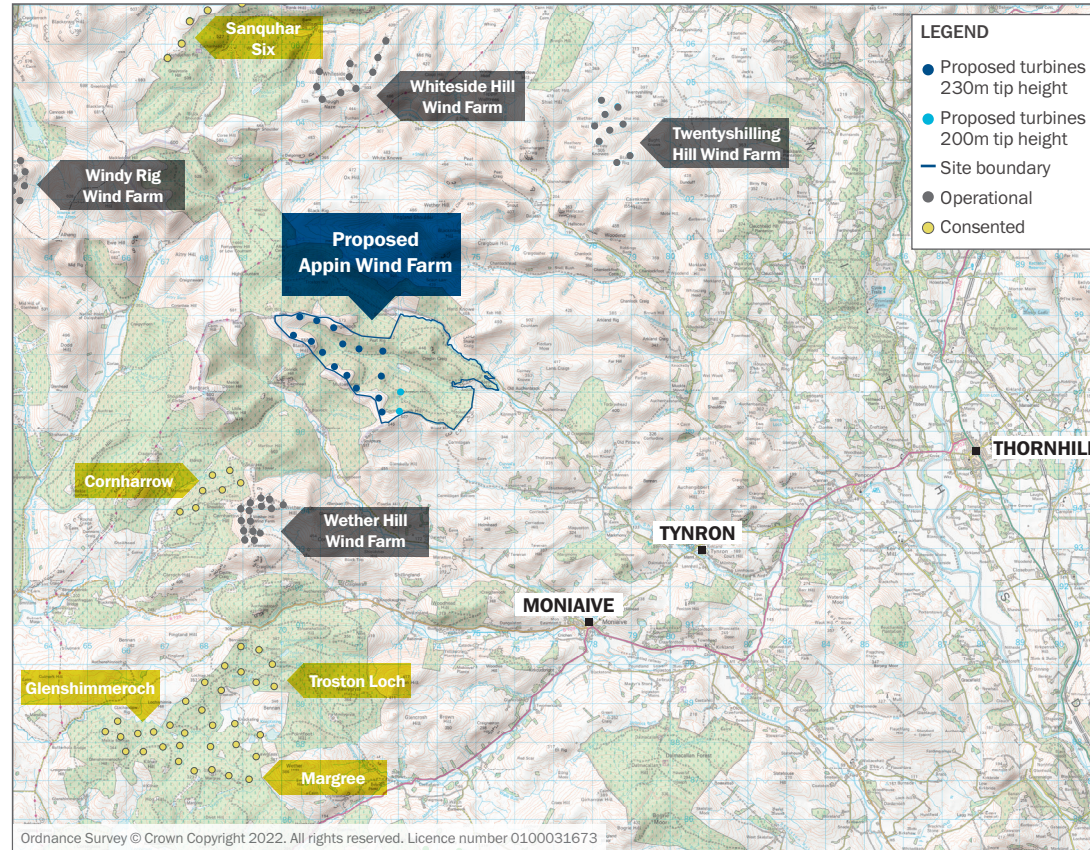

230m

Exciting new opportunity to talk about shared ownership and local suppliers

Potential for improved broadband provision

Plan showing proposed Appin Wind Farm, current operational wind farms and those consented.

We look forward to hearing your views on this project and your ideas on how community funding and shared ownership could deliver benefits to the area.

2 local EXHIBITIONS

7 September: 2pm – 7pm
Glencairn Memorial Institute, Moniaive

8 September: 2pm – 7pm
Tynron Parish Hall, Tynron
