Dear Sir/Madam

**REQUEST FOR SCOPING OPINION, THE ELECTRICITY WORKS
(ENVIRONMENTAL IMPACT ASSESSMENT) (SCOTLAND) REGULATIONS
2017**

Craig Watch Wind Farm Limited (the 'Applicant') (a company wholly owned by Statkraft UK Ltd) propose to construct and operate a wind farm located on land approximately 8 km southeast of Dufftown, Moray in Scotland.

I am writing on behalf of the Applicant to request a scoping opinion under regulation 12 of the above regulations.

I enclose a Scoping Report, which provides a description of the following:

- the nature and purpose of the development, typical construction activities and decommissioning proposals;
- the baseline environment conditions, the likely significant environmental effects identified and proposed method for further data collection and evaluation of effects; and
- the effects that are considered not to be significant, and proposes that these be excluded from the EIA, providing a rationale in each case.

I look forward to receiving your response.

Yours faithfully

Nathan Swankie
