

We're innovative and community focused

Statkraft is dedicated to engaging with communities and finding different ways to bring positive benefits.

We want to talk to you about how our project can bring new investment to your community. We are open to your ideas.

Community Benefit Fund

We are committed to a Community Benefit Fund that delivers, £5,000 per MW installed per year as per Scottish Government recommendations. If consented, the project will generate £297,000* per year for local groups and initiatives.

*Based on 59.4MW of installed capacity. If consented, value of fund determined by actual installed capacity.

Shared Ownership

We are open to offering Shared Ownership on our projects, if there is local interest. We are keen to hear your views on enabling the community to have a financial share in the project.

Statkraft's Knockcronal Project Team (L-R):
John Wallace,
Project Manager
Ruth Semple,
Community Liaison Manager
Harry Handford,
Project Developer

Improved Broadband

Join our online exhibition to tell us more about the broadband service in your area and to hear about our broadband feasibility study.

Local supply chain

We want to work with local businesses to deliver our projects. Visit our project website to find out how local businesses can register their interest.

Please return the freepost reply card provided.

Invitation to Public Exhibition: 14 September – 5 October 2021

Knockcronal Wind Farm Proposal

Our first exhibition was held in May and June 2021 to introduce ourselves and the Knockcronal Wind Farm proposal. Since then we have refined the design. We invite you to review our plans, online or in person, before we submit them to the Scottish Government later this year.

Andershaw Wind Farm, South Lanarkshire, 11 turbines, 140m tip height.

Knockcronal Wind Farm Proposal

Project Summary

Community engagement is very important to us.

www.knockcronal.co.uk

Since introducing our plans in January 2021 we have listened to feedback to shape the development. The number of turbines has reduced from 12 to 9, and layout revised minimising both the footprint and impact of the wind farm.

Find out more and let us know your views. Visit our:

9

Up to 9 wind turbines proposed (reduced from 12)

£297k

£297k per year for a Community Fund*

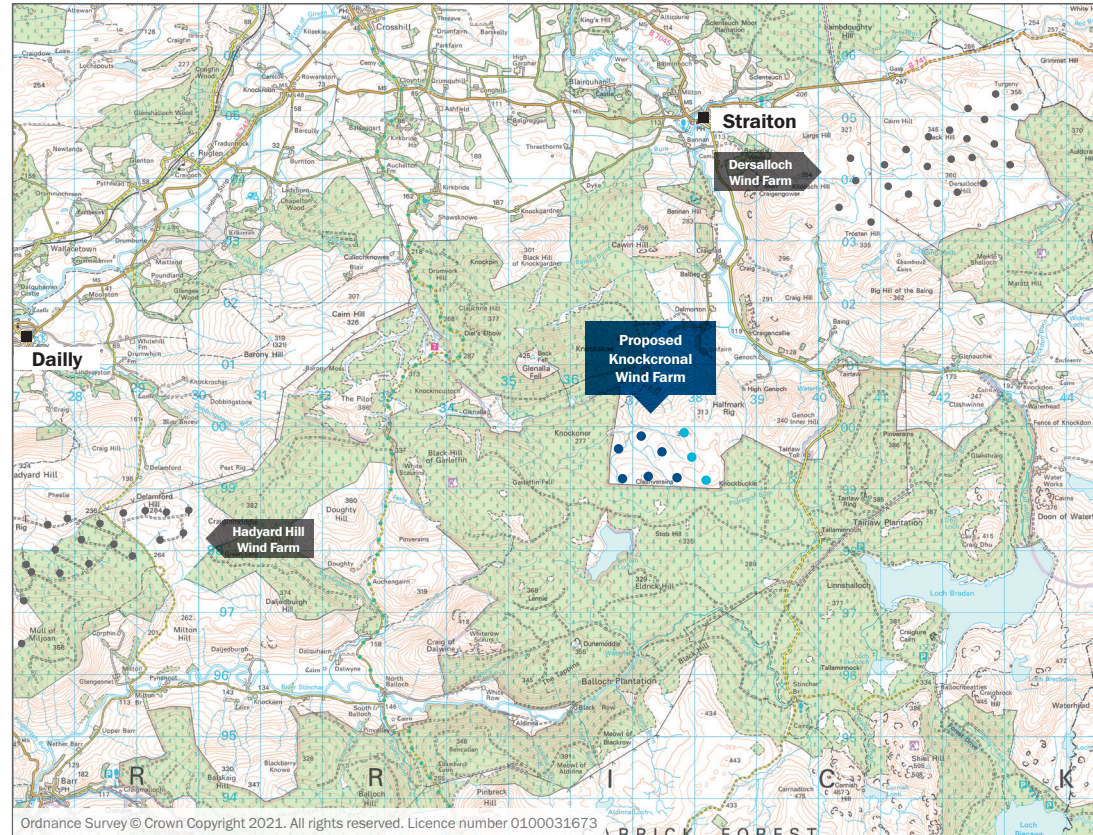

Maximum blade tip height:
200m

Exciting opportunity to talk about shared ownership and local suppliers

Explore the potential for improved broadband provision

● Proposed turbines 200m tip height ● Proposed turbines 180m tip height

Book an appointment at a drop in session. You will be able to speak with members of the Project Team and to see how the proposal may look from your property or local view point. We look forward to meeting you.
